

CUSTOMISABLE FORMS

Different forms for each customer? No problem!

Set a different configuration for each customer or different groups of customers to ensure you capture all the relevant information without having wasted or irrelevant options.

Use templates or create completely new proof of delivery forms, with a wide range of options already created for many different industries, it is very likely that what you need is already available, if not, TrackTrans internal development team can work to build customised forms and app configurations to suit you and your business needs.

Industries and job types already using the TrackTrans ePOD system include, General Haulage, Logistics, Engineering and Mobile Workforce, Vehicle Logistics and Transportation.
