

INSTANT COMMUNICATION

Send jobs out to your employees instantly, status updates will indicate when an employee has, received, acknowledged, arrived, collected signature and completed jobs.

The TrackTrans system is a live, interactive and adaptable system. Jobs can be edited when in progress, employees will receive a notification that details have been amended. The office team can see when updates have been received and updated.

Jobs can be re-ordered either via the TMS or on the driver's handset. Changes to job order will be fed back into the TMS to remain visible to the office team.
